### **Reservation (RSVP by 1/4/07)**

[mailto:rsvpsv@silicomventures.com?subject=Silicom Synergy 1-11-07](mailto:rsvpsv@silicomventures.com?subject=Silicom%20Synergy%201-11-07)

**Outline:** The Space Elevator is probably the most daring Space access proposal on the drawing boards today, promising to open a literal gateway from Earth to space and enable large-scale space commercialization. This presentation by the Spaceward Foundation is a light-technical talks that covers the history, basic concept, and future prospects of the Space Elevators.

### **About Silicom Synergy**

Silicom Synergy's mission is to provide a vibrant networking environment for young (25-38 yr) professionals from different industries. The idea for the group was modeled after the very successful Silicom Ventures group, one of the largest and most active investor groups in the Silicon Valley ([www.silicomventures.com](http://www.silicomventures.com)). The goal of Silicom Synergy is to provide an environment where professionals can meet to extend their networks, learn more about the intricacies of business success stories and gain access to mentoring from successful entrepreneurs, investors and executives.
